

SATURDAY, MAY 8, 1886.

These authorities and the public must learn to distinguish the workmen who work and the professional workmen who carry red flags and anarchy. New York Sun.

The Democratic of the Covington District have split over the Circuit Judgeship, and have two nominees in the field. The trouble down there is that the Democratic majority is only about 3,000.

The Democratic convention at Falmouth the other day nominated W. R. Arthur for Circuit Judge, J. W. Menzies for Chancellor and W. W. Cleary for Commonwealth's Attorney. All the nominees hail from Covington. The "botchers" nominated Lucius Desha for Judge.

That courageous venture-upon-paper, the Cincinnati Telegram, has tackled the gas monopolists of that place and is going to down them. It is only of late that people have realized what exorbitant rates they have been paying for gas. "Turn about's fair play." The Telegram says such light as is now furnished the people of Cincinnati "must not cost more than 80 cents per 1,000 feet."

JEROME COLE did not adjourn court last week "to go off on an electioneering tour," as charged by two editors of this place. Court adjourned simply because there was no business requiring it to be in session. The attorneys were not ready to try, and a great number of the suits on the docket had been continued till next term. We venture the statement that the two editors "jumped at conclusions" and haven't been in the court house long during the present term to learn what has been done.

In a word, the farmers of Mason County are learning how to farm and learning how to live.—Republican Enterprise.

The above is news of such a gratifying nature that we can't refrain from helping to spread it broadcast to the world. We have been resting under the impression for many years that the honest yeomanry of Mason knew how to farm and how to live, but we learn now from our neighbor down at the corner that we have been sadly mistaken. But the farmers should take courage and not give up in despair. The "sole owner and editor" of the Enterprise, who, of course, knows all about farming—just how it ought to be done, you know—tells them that they are not only "learning how to farm," but "learning how to live." They will appreciate this information highly, coming from the source it does. What the editor of the Enterprise doesn't know about "farming" and "living" isn't worth knowing. He has been working in a printing office the greater part of his life.

SAYS the Flemingsburg-Times Democrat: "The result of the primaries Saturday and convention Monday in this judicial district is to place the nominations of Judge A. E. Cole and Jas. H. Sallee beyond the peradventure of a doubt. The result, so far as Judge Cole is concerned, is quite gratifying to the people of his home county, who feel that he has so conducted himself as to richly deserve a renomination and election at the hands of the party. He carried every county in the district except Lewis, the home of Mr. Halbert, where he made no fight. We must say that the overwhelming majority over any man the Republicans may put into the field, though we doubt if he will have any opposition.

The nomination of Mr. Sallee will give satisfaction to the people of the district. Personally he is not objectionable to any considerable portion of our people. His personal character is excellent, his habits good, as he will make an honest, painstaking attorney, who will give his best efforts to the discharge of his whole duty. That he will be elected is a foregone conclusion.

"This cargo is full, fresh, and such as has not appeared in any other paper."—Republican Enterprise.

The "sole owner and editor" of the concern down on the corner of Second and Sutton is nothing if not a "blower." Stop him from his childish bragging and "blowing" once and for all. If, by chance, he happens to get some item in his paper that the public can't read from one to six days beforehand, he raises a terrible "cackling" about it, and can refrain from calling the attention of his readers to the "remarkable feat." His childishness in this particular is one of his leading traits, and he never fails to manifest it whenever occasion offers, and, in fact, very often when the opportunity exists only in his mind. The sentence quoted above is a fair sample of his "blowing." He uses it in his article to-day giving alleged railroad news. The "cargo" of news which he says "has not appeared in any other paper" is not new to the people of Mayville and Mason County. They were informed days ago, through the DAILY BULLETIN, as to the calling of that guarantee and what it held forth; also, as to the legislation referred to, and as to what that legislation

provided for. The same is true as to the other items. However, the "editor and sole owner" is known to the citizens of Mayville, and known for just what he is—a "blower" of the genuine stripe, "warranted not to fade or crack color."

Notwithstanding the substance of that guarantee was given days ago to our readers, yet in view of the fact that the taxpayers of the county would be called upon eventually to "foot the bill," we deemed it well to give them the full details of the matter, and would have published the guarantee last Tuesday. Our reasons for not doing so are here given:

We applied Tuesday morning to one of the leading guarantors for the contract, with a full list of the subscribers, and was refused, with a special request of us not to publish the matter. The reason assigned for this request was that publishing the names of the guarantors would do no good, and, perhaps, might do some harm. The gentleman referred to has treated us fairly, and we make no complaint against him. Another one of the guarantors whom we saw later wanted the whole thing published so that the people could know who the "benefactors of Mayville were," and promised us the copy as soon as the matter was definitely settled with Mr. Huntington. Our readers can draw their own conclusions from the fact that the copy wasn't furnished us. We deem this much due from us in justice to our patrons. All we ask is fair treatment, and when any one goes to discriminating against the DAILY BULLETIN it will be a game at which more than one can play.

Salve for a Broken Heart. GREENSBURG, Ind., May 8.—Richard M. Farlow has commenced suit against Phoebe Jewett and Orin C. Jewett for \$10,000 damages for alienation of the affections of plaintiff's wife from him and inducing her to abandon him. It is claimed that she yielded to the seductions of the defendant while she was in a feeble and sickly condition and abandoned her husband, taking with her an infant child, and by reason of their intermeddling, the plaintiff claims he has suffered great unrest, mental anguish and sorrow. Mr. Jewett is a wealthy farmer of this county, and the wife of Farlow is a daughter of Jewett's. The case promises to be highly sensational.

Youthful Burglars. MANCHESTER, O., May 8.—Ephraim Walster, Wm. McLellan, George Lane Raster, James Stued, and Charles Knowler, six boys ranging in age from ten to twelve years entered the house of Mrs. Caroline Sylvester, ransacking the entire building and securing a considerable amount of clothing, books, dishes, &c., after which they began to peddle it from house to house when they were taken by a portion of the goods recovered, but no arrests have yet been made, as Mrs. Sylvester is absent from home.

Serious Quail at Ireton. IRETON, O., May 8.—Samuel Murphy, a prominent local merchant, has begun to abuse him, when Clark struck him on the head with a brick, felling him to the sidewalk. Murphy was conveyed home, when it was found that he was badly hurt. One side of him is paralyzed from the effects of the blow, and he will probably die. Clark was bound over to court.

A Sad, Sad Break. LOUISVILLE, May 8.—A school bill has been passed by the legislature to-day for levying school taxes. One clause says: "Any widow, spinster, and alien, who is a taxpayer, and has children of a school age, shall be qualified to vote." Spinsters with the first of school age are rare.

Town Treasurer Short. AKRON, O., May 8.—W. M. Griswold, town treasurer of Cuyahoga Falls, is reported short \$1,800 in his accounts. Suspicion has been growing for a year past. He was brought before the town council and, after an examination, removed from office. He has been a resident of that town for many years, acting as agent for the Cleveland, Cincinnati & Western Ohio railroad. He is twenty-five years. No arrest has been made, and no charge will be brought against him.

Wiped Out by Fire. MEMPHIS, May 8.—Early this morning a fire destroyed nearly all the business portion of Hennessey, Tenn., located forty miles north of here on the Chesapeake & Ohio railroad. It started in an unoccupied house, and was probably the work of an incendiary. There were thirteen losses by the fire, the total loss being \$27,100, with \$6,000 insurance. The buildings were all frame. Hennessey will rebuild at once.

Earthquake. COLUMBUS, O., May 8.—Two distinct shocks of earthquake were felt here. The stationhouse was perceptibly shaken. Some members of the house which was in session at the time, seemed to think at first there had been an explosion of dynamite.

Foreign. Greece's reply to the collective note of the powers was not satisfactory, and the ambassadors will depart for Athens to-day. Turkish troops are massing on the frontier, and Greek troops will hasten forward. Gladstone announced in the Commons yesterday that the powers would compel Greece compliance with their demands. Cholera has got a firm hold at Venice and Vienna. Miss Matthews and her party, of New York, were married in Paris yesterday. It is officially announced that the archbishops of Quebec and Baltimore will be created cardinals.

Sunday School at Aberdeen. Let merit fall upon whom merit is due. The Baptist Church will be completed to-day, and we must say it is a perfect model of beauty. The young men of our town are long to be remembered by its citizens for the interest manifested in so good a cause. The Union Sunday school will open the doors Sunday evening, May 9th, at 8 o'clock.

Keynote to Health. Health is wealth. Wealth means independence. The BAKER'S Cough and Lung Syrup, the best Cough Syrup in the world, is sold by all druggists. It cures Croup, Whooping Cough, Bronchitis and Primary Consumption. One dose gives relief in every case. Take no other. Price 25 cents and 50c. Sample free. Sold by George T. Wood.

STORM AND WATERSPOUT.

Kansas Swept With Hail as Large as Apples.

EMPORIA, Kan., May 8.—The worst rain and hail storm ever known in this county swept over the country, just west of this city. It struck the west border of the State. The train a Elmfield with such force as to break all the glass on the north side, and even the slats of the blinds were broken by the hailstones, which are reported as being as large as apples. At Jacob's Creek, just southwest of this city, a waterspout swept over the place, dropping Mrs. Jacobs and her child. Details of the disaster could not be learned, but no other fatalities are reported.

At Osgo City nearly all the windows in the north side of the houses were broken. This city coped with a very heavy rain and wind storm, but no damage of consequence is recorded.

Cyclone in Illinois.

WOODSTOCK, Ill., May 8.—A small cyclone struck the country between Ringwood and McHenry, in this county. Three men were killed, and several others wounded. The conductor has gone to the spot, which cannot easily be reached to-night, and until his return further details will not be obtained.

POINTED PARAGRAPHS.

Topics of the Times Given in a Tersely and Spicy Manner.

A strike is threatened in the Mahoning valley. It would throw 3,000 coal miners out of employment.

Cleveland has five hundred Socialists, but at a meeting of the clan last night proved to be a failure.

The Liquor League of Indiana met at Indianapolis and effected an organization in opposition to high license.

A second bill to allow savings banks to invest in Cincinnati bonds was defeated in the Massachusetts house.

Jefferson Davis attended a military reunion at Savannah, Ga., in the unveiling of a monument in the park.

Justus H. Schwab, the New York Socialist, declares that he discontinuance the work of the Socialists in this country.

A thousand striking furniture-makers paraded in Cincinnati. The only flag displayed was that of their country, the stars and stripes.

Mr. A. W. S. Miner, of Athens, O., returning home unexpectedly at night, was mistaken for a burglar and fatally shot by a hired boy.

President Cleveland will call a halt on indiscriminate legislation on pension claims by vetoing all bills that do not show a clean title by the records.

The report of the Ohio house of representatives, sent to the U. S. senate, is defective, but it can be made all right by a little proper and prompt action.

The barbers of Cincinnati, bosses and journeymen, propose forming a union, and establishing a system of shorter hours and regular rates of charges and wages.

Warrants for the arrest of the absent Ohio senators will be placed in the hands of the proper officers, with instructions to follow the fugitives and bring them in.

Five hundred strikers of the Dearing Harvester works, Chicago, returned to work yesterday morning. Three-fourths of the McCormick men reported for duty.

The American Medical association, in convention at St. Louis, elected E. H. Gregory, of St. Louis, president. The association will hold its next convention in Chicago in June, 1887.

The absent Democratic senators from Columbus, O., were entertained by their friends in Covington, Ky. A number of them took a train for Chattanooga and the further south.

Lewis York, engaged in scattering Anarchist literature about Loganport, Ind., was waited upon by a committee of citizens and compelled to leave town. He left by the first train.

Senator Fair, of Nevada, recommends the purchase of the Island of Santa Catalina, in the Pacific ocean, about twenty-five miles southwest of Los Angeles, and colonizing the Apaches on it.

The Greenbackers of Iowa have nominated J. O. Scales, of Dallas, secretary of state; F. L. Ellworth, of Mahaseta, treasurer; J. V. Myers, of Lynn, auditor; J. W. Brown, of Cedar Rapids, clerk.

The railroad freight handlers in Cincinnati went to work yesterday at the compromise wages offered by the managers. It is an important movement toward an adjustment of the labor troubles in Cincinnati.

Twenty-five Cincinnati carriage and wagon manufacturers freely feel that they cannot advance wages, but he concludes to open up shop this morning and give work to all the old men who will accept it on the old basis.

The employees of J. A. Fay & Co., Cincinnati, passed resolutions to the effect that any person carrying the red flag of Socialism or communism should be expelled from the country, and also every honest and respectable workman.

O. W. Stacy, striking freight handler, who led in the visit to the Little Miami yards, to interfere with the men there, is held in \$7,000 on a continuance of his case, and is in the Hamilton county jail. An application for a writ of habeas corpus was refused.

Alexander Sullivan, ex-president of the Irish National league of America, says workmen make a mistake in not accepting a reduction of wages and going to work on the eight-hour system. The law of supply and demand would soon regulate their wages.

The Anarchists in New York City number about 10,000. But they are divided into two contending factions, headed respectively by John Most and Justus Schwab. Honest workmen from upon them and the police keep close watch on their movements.

The labor situation in Cincinnati presents a much better outlook. There were few additional strikes yesterday. On the other hand a large number of men have returned to work on the old or on compromise basis. Fears of violent outbreaks are vanishing.

But the authorities have taken ample precaution to promptly suppress any that might occur. A thousand special policemen have been placed at the command of the mayor. Strong forces of military are in readiness, and within any hour it is altogether probable that their services will not be needed. The voting precinct meetings last evening were unimportant and unimportant and unanimous and earnest in sentiment. Companies were enrolled and captains appointed to report to the mayor for assignment to duty.

Mr. Arthur's Condition.

NEW YORK, May 8.—Ex-President Arthur's condition is considerably better to-day.

SIGNAL SERVICE REPORT:

"Fair weather, stationary temperature."

Honey Syrup—Calhoun's.

Circuit Court adjourned till next Wednesday. Nothing ready for trial.

Do not fail to examine Herman Lange's new stock of jewelry, watches, clocks and silverware.

RELIEF for the poor at F. B. Ransom's, where good boots and shoes are sold at less than cost.

The Germantown Fair Company has engaged Hancke's Reed and Cornet Band to furnish music for the fair next fall.

For SALE—Carriages and buggies, cheap, at F. Dieterich & Sons'. Bound to sell. Prices to suit the times. All work warranted.

The Ministerial Association of the Ripley district, Cincinnati Conference, M. E. Church, will be held next Monday, Tuesday and Wednesday, at Ripley.

SOME of the ministers of Georgetown, O., are vigorously remonstrating against the running of Sunday trains on the Cincinnati and Georgetown Railroad.

THE County Board of Equalization finished its labors yesterday afternoon. The addition to the total assessment of the county amounts to nearly \$100,000.

The Reason Why!

My goods are good, and prices have nothing to do with the case. They must be sold, hence the rush at F. B. Ransom's.

THE heavy rain Thursday night and Friday will prove of great benefit to the growing wheat. The prospects for a bountiful yield of this cereal continue flattering.

THE President and other members of the City Council deserve the thanks of the newspaper fraternity for favors received. They seem determined to provide comfortable quarters for the reporters.

THE "constantly tired-out" feeling, so often experienced, is the result of impure blood, causing enfeebled vitality. Ayer's Sarsaparilla enriches the blood, increases the appetite, and promotes digestion. The system thus invigorated, feels new strength and energy.

AYER'S Cathartic Pills are the best medicine that can be employed to correct irregularities of the stomach and bowels. Gentle, yet thorough, in their action, they cure constipation, stimulate the digestive organs and the appetite, and cleanse, build up, and strengthen the system.

WHEN the repairs to the council chamber are completed, the members expect to enjoy a feast at the hands of the Committee on Public Buildings. The bill of fare will consist of cream and strawberries, to which viener-wurst has been added. The reporters, of course, are expected to be on hand.

A BODY forty employees began laying gas mains for the new company on the Germantown pike in the west end this morning, where work was stopped the other day. At the instance of the turnpike company, notice was served on gas company that the order dissolving the injunction had not taken effect and that they would be proceeded against next Wednesday for contempt of court.

MR. ED. GOSHAM, residing near Cincinnati, Bourbon County, Ky., is here to-day. He has been afflicted with stammering for several years past, but under the treatment of Prof. Stubbs, now located at the European Hotel, he says he has been greatly benefited. In a conversation with him this morning he manifested but little impediment in his speech. He has full faith in Prof. Stubbs' treatment.

As will be seen by reference to council proceedings published yesterday, the German Furniture Company, of Middleport, Ohio, seem anxious to remove their plant to this city. As they give employment to one hundred hands, Mayville would do well to get them here, provided the company is sound, financially. In conferring with them, the Mayor should find out what inducements they expect us to offer.

A STREET railroad case, of interest, was decided at Louisville the other day. An eleven-year-old boy was run over by a car, one leg being fractured and amputation following. Suit was brought by his father, and a verdict of \$6,000 has been rendered. The company has no conductors on its cars, and the driver testified that he did not see the boy when the accident occurred; but the court held that the failure of the company to employ conductors was an evidence of negligence.

WALL OR KEHOE.

Which Will It Be?—Latest News as to Election.

The Democratic primary election to-day to decide as to Mason County's choice of candidates, between Hon. G. S. Wall and Hon. J. D. Kehoe, is passing off quietly. With the exception of one quarrel of a trivial character, there has been no trouble in this city or the county that has been heard of. Good feeling prevails between the friends of the opposing candidates, and the winner of to-day's contest will receive the unanimous support of the county from this on. It wouldn't be fair to make any predictions as to the final result. We give the latest returns and our readers can draw their own conclusions:

At the closing of the polls at 12 o'clock the vote in Mayville No. 1 was as follows:

Kehoe.....100
Wall.....100

Kehoe's majority.....0

In Mayville No. 2 as follows:

Wall.....141
Kehoe.....96

Wall's majority.....45

The vote in Chester at 12 o'clock stood:

Wall.....66
Kehoe.....8

Wall's majority.....58

At Sardin:

Kehoe.....14
Wall.....8

Wall's majority.....6

At Maylick:

Wall.....58
Kehoe.....31

Wall's majority.....27

Cost of Gas.

The Cincinnati Commercial Gazette in 1870 investigated the cost of making gas and showed conclusively that the companies at that place were charging exorbitant rates. In speaking of the result of that investigation, the Telegram says: "If gas could have been sold in 1879 at 75 cents per thousand feet, and given the company a profit out of which it could have paid interest on a fictitious bonded debt of three million dollars, and six million of watered stock, certainly it can be done now when labor and materials are so much cheaper than they were then. A summary of the facts proven by the Cincinnati Gazette gives the following points:

"First—That one bushel of coal makes four hundred and twenty cubic feet of sixteen-candle power gas.

"Second—That the cost of a bushel of coal laid down at the gas works was 8 cents.

"Third—That the coke and coal paid the entire cost of making coal gas, and that the cost of the gas was 16 cents per thousand feet of sixteen-candle power gas.

"Fourth—That if the gas company was allowed 7 per cent interest on its bonded debt, and 20 per cent interest on its entire capital cost that it made the cost of delivery of gas to consumers, (after adding 10 per cent for repairs and 10 per cent for the elements and addenda), 16 cents per thousand feet.

"Fifth—By adding the cost of coal, 18 cents, to cost of delivery of 16 cents, that the total cost to the company of one thousand feet of sixteen-candle power gas, delivered in the meter to the consumer, was only 31 cents."

The Curious Sights and Strange Features in Barnum's Cirkus.

P. T. Barnum & Co., will this year present the perfected show of the age—one that is up to and abreast of the times in which we live—with no old-time features about it except its title. Barnum and his London show. The circus this year is larger, better, richer, and grander than ever before in its history, with its three separate rings, occupied by 300 expert performers; its Roman hippodrome and numberless daring and perilous races; its elevated stage performances, upon all of which over one hundred thrilling acts are given; its museum of living wonders and curiosities, elephant pavilion with a herd of these big beasts, double menageries, drove of camels, 500 horses, huge tents—the biggest seating 20,000 persons—eighty railroad cars, 800 people on the payroll, Congress of International Giants, troops of Arabs, the Miramba band, reproduction of the colossus, Jumbo, the big ivory-boned elephant skeleton; Alice, Jumbo's widow; dwarfs, midgets, and thousands of other curious objects and features. Is it any wonder everybody goes to see it? The clergy and press endorse it, and scientists and professors extol it not only as a place of amusement for adults, of for children, but as an institution conveying knowledge to all. The whole entire affair will be here on the 21st instant, and the tremendous parade takes place in the morning at 8 o'clock. As the whole show sails for Europe in the fall, this is positively the last chance to see it.

Election of Officers.

At the regular monthly meeting held at the American hall Friday evening May 7th, the following officers were chosen to serve the ensuing six months:

President—Charles Doherty.
Vice President—W. C. Pelham.
Secretary—G. C. Fleming.
Messengers—Charles Doherty.
Committee of Resolutions—Thomas M. Laman, Assistant Charles—James S. Hise, Engineers—Louis Stickley, Frank Means, Nute Rudy, Taylor Cook.
Standing Committee—James S. Hise, Chairman, Louis Stickley, J. L. Daulton, Daniel Shearer, Frank Means.
Sole Comptroller—J. M. Pelham.
Finance Committee—W. C. Pelham, George C. Fleming, Wm. A. Toile.

F. B. RANSOM.

WHY DIGGEST THOU?

"Old man, for whom diggest thou this grave?" I asked as I walked along.
For I saw in the heart of Mayville streets A dark and busy throng.
Till a strain, a wild deed, but a wider wish Of the parted soul to lie,
'Mid the troubled numbers of living men, Who would pass him lightly by.

So I said, "For whom diggest thou this grave, I, the heart of Mayville town?"
And the deep-toned voice of the digger replied, "We're laying a gas pipe down."

HA! HA!

AMUSING AND ALARMING.

THE QUARREL BETWEEN LITTLE GREECE AND THE POWERS.

An Ultimatum, Which Should Mean the Last Word, Proves Only Idle Posture of the Powers—The London Press Disgrace to Journalism—Flippant England.

VIENNA, May 8.—The quarrel between little Greece and the combined powers of Europe is becoming more amusing as well as more alarming every day. The London Press is reported to have taken a novel stand in regard to its answer to the "collective note" being unsatisfactory to the powers. He says that he considers all the correspondence between Greece and the powers to be a matter of no account, and that he is not binding on either party. He says that the powers sent Greece an ultimatum demanding that she should disarm within eight days. Greece sent a reply explaining to the powers that she was not disarming at once. The eight days passed and the powers took no steps toward enforcing the acts of coercion, which were threatened.

Then, and not now, says M. Delany, was the time for the powers to have spoken, and they had a right under international law to send their answers by means of solid shot for their war. They were not brutal enough to do so. In not doing this they lost forever their right to dictate to Greece in the present crisis. An ultimatum means a last word. That of the powers, according to M. Delany, is the last official word of the powers to Greece.

The city would be sorry to see the powers withdraw their representatives from Athens. They were agreeable gentlemen, but, on the whole, he thought the shrewdest way for the powers to get out of their dilemma, although there was no pretense that Greece was at war with any of them.

The tone of yesterday's meeting of the cabinet council was decidedly adverse to terms of conciliation or to any further submission. The people are also recalling the recent words of M. Trikoupi, who said: "The powers are only threatening us, and will never execute their threat. We cannot act in consequence of mere threats."

The tone and conduct of the London press during the whole of this crisis has been a disgrace to journalism. The papers have not only failed to enlighten the public, but have done the opposite, by steadily belittling the eastern peril, but have constantly suppressed news of the utmost value when it was favorable to Greece, or when it pointed toward war. The British government is pursuing the same course of suppression and distortion. It keeps the subject as much in the background as possible, but when compelled to speak, by a question in the house, it makes a flippant reply giving no hint of the real situation.

It is said that the foreign secretary has begged the editors of the leading journals to suppress dispatches which are "perilous to British honor." Each one of these editors has his safe studded with Turkish bullets, and the very last thing which they want to see is war.

Getting Out.
LONDON, May 8.—A later dispatch from Athens says that the Turkish Ambassador, with his staff, has left the city, taking with them their personal effects. The embassies of the other powers are in charge of the secretaries. The Russian minister, it is stated, refused to leave at the last moment, saying that in the absence of instructions he would have to remain. The Polish minister has been ordered to Thessaly.

An Important Move.
LONDON, May 8.—A dispatch from Athens states that the Greek government has dispatched a gunboat to Constantinople to bring home its representative from the Turkish court, and that troops and munition are being forwarded to the front with all possible haste.

Departure of Troops.
ATHENS, May 8.—Two battalions of the garrison of this city have started for the frontier. They embark at Laurium to avoid the blockaders on the other routes. The greatest enthusiasm prevails among the populace, and the war spirit is rampant.

Departure and Blockades.
ATHENS, May 8.—The ambassadors of the powers, embarked on the war ships of their respective governments this morning, and orders have been issued to the commanders to blockade the ports.

BOTH GOT IT.
Duplex Verdict in a Liquor Case in the Police Court.

CINCINNATI, May 8.—Jacob Schwartz, a saloonkeeper at No. 678 Sycamore street, was arraigned in the police court this morning for selling liquor to George Stevenson, a minor of seventeen years. It was shown that he had been given both beer and whiskey by Schwartz.

The latter made no defense, except that he did not remember the occurrence. He was found guilty and fined \$50 and costs. The boy was given ten days in the workhouse for drunkenness, it having been proven that he had been arrested before for the same offense.

April's Fire Losses.
NEW YORK, May 8.—The fire losses of April in the United States and Canada are estimated by the New York Daily Commercial Bulletin at \$8,000,000. This is \$600,000 more than April fire losses have averaged during the past eleven years. There were thirteen fires in April, whose aggregate destruction reached \$5,500,000. The April fires of \$10,000 and upward, recorded by the Bulletin, numbered 145. The prospect is that the fire waste of 1886 will considerably exceed \$100,000,000.

Ferry Boats Collide.
NEW YORK, May 8.—The Grand street ferry boat "Commodore Perry" collided with the ferry boat "Montana" to-day. Both boats were crowded and great excitement prevailed. No one was injured. The boats sustained slight injuries.

Oil Excitement.
PITTSBURGH, May 8.—The oil trade was considerably excited to-day over a strike which was made by the Economists at a venture of theirs at Legionville, on the river. The wells are reported as doing fifty barrels a day.

Capt. Gerrit Acquired of Barraty.
BOSTON, May 8.—In the trial of Capt. Jeffery Gerrit, for the murder of a woman and casting away the schooner "Racer," the court charged favorably for the defendant. The jury rendered a verdict of acquittal.

Neuralgia

CAN BE CURED WITHOUT THE USE OF OPIUM OR MORPHINE!
The Medical Record, published at St. Louis, says in the June, 1884, issue: "Many have become victims to the use of opium or morphine in the treatment of this disease. It is gratifying to observe that such dangerous consequences may be averted by the use of TONALIN, which is almost a specific in the acute form of Neuralgia."

Incorporated in 1883 for twenty-five years by the Legislature for Educational and Charitable purposes—with a capital of \$1,000,000—to be paid in a term of years of \$50,000 has since been added.

By an overwhelming popular vote its franchise was made a part of the present State Constitution adopted December 2, A.D. 1878.

The only lottery ever voted on and approved by the people of any State, it never loses or postpones.

Its Grand Single Number Drawings take place monthly, and the Extraordinary Drawings regularly every three months instead of Semi-Annually as heretofore, beginning March, 1885.

A splendid opportunity to win a fortune. Fifth Grand Drawing, June 8, in the Academy of Music, New Orleans, on TUESDAY, MAY 11th, 1885—Grand Money Drawing.

Cure for Piles.

Piles are frequently preceded by a sense of weight in the back, itches and lower part of the abdomen, causing the patient to suppose he has some affection of the kidneys or neighboring organs. At times, symptoms of indigestion are present, as flatulency, uneasiness of the stomach, &c. A moisture, like perspiration, producing very disagreeable itching after getting warm, is a common attendant. Blind, bleeding and itching piles yield at once to the application of Dr. Ross' Compound Syrup, which is a powerful and permanent cure, according to the directions, relieving the intense itching, and effecting a permanent cure. Price 50 cents. Address the Dr. Ross' Compound Syrup Co., Piquette, O. Sold by Geo. T. Wood.
